

2018 International Symposium of Integrative Medicine Research "One Giant Leap for Human Health: Convergence of Korean Medicine"

Date	November 1, 2018
Venue	Space21 College of Korean Medicine Building, International Seminar Room (No. 263), Faculty Conference Room (No. 159)
Host	BK21plus Korean Medicine Science Center, Basic Research Laboratory for Comorbidity Regulation
Support	East-West Medical Research Institute of Kyung Hee University, Institute of Safety and Effectiveness Evaluation for Korean Medicine, Kyung Hee Institute of Convergence Korean Medicine

Opening Ceremony			
09:00~09:30	Registration		
09:40~09:45	Opening Remark	Jae Dong Lee	Dean of college of Korean Medicine, Kyung Hee University
09:45~09:50	Congratulatory Remark		

Key Note speech			
10:00~10:40	Gary E. Deng	Making Integrative Oncology Part of Standard Cancer Care: Principles, Practice and Program Development in a Comprehensive Cancer Center in the United States	Memorial Sloan Kettering Cancer Center, USA

Chair: Edmund Kim (University of California at Irvine & Kyung Hee University), Seong-Gyu Ko (Kyung Hee University)			
SubTopic : Convergence Research in Cancer			
Session 1	Speaker	Title	Affiliation
10:40~12:20	zhao-xiang Bian	MZRW for functional constipation: from clinical study to basic mechanism	Hong Kong Baptist University, Hong Kong
	Hung-Rong Yen	Traditional Chinese Medicine for Cancer Patients in Taiwan: A Big Data-Bench-Bedside Approach	China Medical University, Taiwan
	Yoshiharu Motoo	Chemotherapy-induced peripheral neuropathy: a new approach	Kanazawa Medical University, Japan
	Junhee Lee	Protective effect of yeoldahanso-tang on radiation-induced oral mucositis in mice	Kyung Hee University Medical Center, Korea

Chair: Hun Taeg Chung (Ulsan University), Raekil Park (Gwangju Institute of Science and Technology)			
SubTopic : Novel Approach for Immue Regulation			
Session 2	Speaker	Title	Affiliation
14:00~15:40	Leo E. Otterbein	Heme Oxigenase-1: Where is the Clinical Breakthrough?	Harvard Medical School, USA
	Beom-joon Lee	Comparative study of the effects between dexamethasone and PM014 in cigarette smoke-induced subacute pulmonary inflammation mice model	Kyung Hee University Medical Center, Korea
	David D. Haines	Heat Shock Protein-Mediated Immunoregulation for Prevention and Treatment of Systemic Inflammatory Response Syndromes (SIRS): Use of Ttongsul, a Traditional Korean Medicine	University of Debrecen, Hungary

Coffee Break & Poster Presentation Session

Chair: Younbyoung Chae (Kyung Hee University), Hyeong Jin Jang (Kyung Hee University)			
SubTopic : Young Investigators' Presentation			
Session 3	Speaker	Title	Affiliation
16:30~18:00	Seok-Jae Ko	Feasibility of quantitative measurement of abdominal diagnosis in functional dyspepsia	Kyung Hee University, Korea
	Tae Woo Kim	DSGOST regulates resistance via activation of autophagy in gastric cancer	Kyung Hee University, Korea
	Jinbong Park	TRP channels as indicators of traditional Korean medical characteristics of herbs	Kyung Hee University, Korea
	Yu-Kang Kim	A key mediator of acupuncture effects on levodopa-induced dyskinesia: hypothalamic melanin concentrating hormone	Kyung Hee University, Korea
	Ji Hwan Lee	Alleviation of oxalipatin-induced cold allodynia by Cinnamomi Cortex and its phytochemical in rat model: modulating activated glia and release of pro-inflammatory cytokines in spinal level	Kyung Hee University, Korea
	Joon-Ji Lee	Neuroprotective effects of a traditional multi-herbal medicine Kyung-Ok-Ko in an animal model of Parkinson's disease; Inhibition of the MAPKs and NF-κB pathways and activation of the Nr12-ARE pathway	Kyung Hee University, Korea
	Jae Hyun Kim	KH006 promotes osteogenic differentiation of MC3T3-E1 and healing of rat femoral fracture	Kyung Hee University, Korea
Organization Committee		Seong-Gyu Ko (Chair), Hi-Joon Park, Jae-Young Um, Younbyoung Chae, Woo Jin Kim	

7th Joint Symposium of WHO Collaborating centres for Traditional Medicine in Japan and Korea

Chair: Seong-Gyu Ko (Kyung Hee University), Sanghun Lee (Korea Institute of Oriental Medicine)				
SubTopic : Safety Issue of Herbal Medicine				
November 1, Satellite Session	Speaker	Title	Affiliation	
14:00~18:00	Yu-Lee Park	Quality and safety issues of herbal medicines in the Western Pacific Region	WHO WPRO	
	Chiaki Ogata	Dispensing crude drugs and Safety monitoring system for traditional medicine	Kitasato Institute, Japan	
	Dal-Seok Oh	Population-based multi-center prospective observational study for the safety assessment on the hospital-prescribed Korean traditional medicine	Korea Institute of Oriental Medicine, Korea	
	Coffee Break			
	Yutaka Shimada	Patient safety incident reports related to traditional Japanese Kampo medicines: medication errors and adverse drug events in a university hospital for a ten-year period	Toyama University, Japan	
	Seong-Gyu Ko	Safety Information of Herbal Medicine and Herbal Material in Korea	Kyung Hee University, Korea	
	Pravit Akaraseeront	The traditional medicine adverse events reporting in Thai health product Vigilance center database and Ayurved clinic of applied Thai traditional medicine, Siriraj hospital, Thailand	Mahidol University, Thailand	
Discussion
